Antti Viitala

- 🇭🇰 Hong Kong based (PR) | 🇫🇮 Finnish citizen
- Well-rounded engineer focused on devops and cloud infrastructure
- Lead Infra & DevOps at Synpulse8 and support multiple projects and internal products working primarily with Kubernetes on AWS EKS
- ~5 years of experience within technical consulting for financial services
- Experienced and fluent at working with stakeholders of all levels across business and technology
- Effective and driven learner, able to take new topics/technologies to a working level very quickly

Key skills, interests & personal projects

- **Cloud providers:** AWS | Azure | GCP (basics only)
- **Tech platforms and tools:** GitHub Actions | Docker | Kubernetes | JFrog | Atlassian (Jira/Confluence) | Jenkins
- **Programming languages/frameworks:**
  - Strong: Python | Terraform | Bash/Shell | YAML | TOML
  - Basic: Golang | HTML/CSS/JS | Svelte/SvelteKit | VBA | DAML
- **Languages:** English 🇬🇧 | Finnish 🇫🇮
- **Personal projects**: See my projects page for more information
- **Open-Source contributions**: See contributions to open-source projects for more information
- **Other interests:** Ultra running 🏃 | Swimming 🏊 | Esports/FPS 🔫 | Electric guitar🎸

With Kubernetes I have experience primarily with EKS. I prefer to manage clusters with GitOps using flux. For cluster management I'm a huge fan of K9S.

Some of the Kubernetes applications I have configured and have familiarity with are kubernetes-autoscaler, nginx-ingress, cert-manager, external-dns with Route 53 and Azure DNS, oauth2-proxy with Azure and GitHub providers, redis, loki-stack, prometheus-stack, and robusta.

Work experience & education

🇭🇰 **Synpulse8 (S8)** [03-2021 - Present]

Solution Architect (Vice President) - Devops, CI/CD, cloud, system design & software development

- Design, set up and maintain central internal cloud infrastructure following the GitOps model
- Devops and infra-as-code for a mobile application with a CMS API backend (AWS App Runner / Aurora / WAF / ECR / S3 etc. managed via Terraform, GitHub Actions, JavaScript)
- Devops and infra-as-code for several microservices-based financial applications (primarily using AWS EKS / AWS Aurora DBs / S3 etc. managed via Terraform and Kubernetes, GitHub Actions)

- Devops and infra-as-code for a financial-services focused risk analytics visualization app (Azure/AWS, AKS/EKS, GitHub Actions, front: React / back: Spring, Apache Pinot, Terraform, Airflow)
- Set up, administration and operation of our CI/CD pipelines and cloud infra, for example our internal product development clusters (Azure, Kubernetes, GitHub Actions, JFrog)
- S8 Operating model definition: devops, tech stack (incl. licensing), architecture principles, security policies
- Infra, architecture and development of a DAML-based collateral management system MVP
- Various internal initiatives: creating websites/portals/webapps with e.g. Hugo and Azure Static Web Apps

Solution Architect (Senior Analyst) - System design, software development

- IT Platform design for a new market / new business unit of a global Swiss private bank
- Development lead and client-facing project manager for an employee analytics tool (Python, MS Graph API)
- Architecture/REST+Kafka integration for OpenShift-based Avaloq Wealth Platform (AWP)
- Led internal initiative for APAC OpenWealth chapter, an open API standard for wealth management

🇭🇰 Synpulse Management Consulting [01-2019 - 03-2021]

Consultant - Technology and Robotic Process Automation (RPA) focus

- Investment Suitability for a global Swiss Private bank (HK/SG) - Regulatory and control sampling gap analysis
- Process Optimisation for a global Swiss Private Bank (HK/SG) - Prioritize automation initiatives and deliver a trade reconciliation POC with Blue Prism
- Data ingestion and Portfolio reporting for a MFO (HK) - Development lead and project manager

🇫🇮 Finnish Defence Forces (national service) [07-2018 - 12-2018]

🇭🇰 Quinlan & Associates [01-2018 - 05-2018] - Research report #1, #2

🇭🇰 Bloomberg L.P. Analytics project [07-2017 - 05-2018] - Award

🇭🇰 EONIQ [06-2016 - 12-2016] - Watchmaker and crowdfunding marketer

🇭🇰 The Hong Kong University of Science & Technology [2015 - 2018]

- BSc. (1st hons.) Risk Management & Business Intelligence – GPA: 3.68 / 4.3
- Director of Operations/Project manager at International Consulting Club of HKUST (ICC)

Certifications

- 2022: DAML Associate | Thought Machine Vault fundamentals
- 2020: Aalto EE: Essentials of Leading Change | Blue Prism: Process Controller,Developer | UiPath Solution Architect, Developer, Orchestrator, Implementation Methodology
